

## About this Course

Exposure to bloodborne pathogens is a potentially serious workplace hazard. Employers and workers must protect themselves by limiting their occupational exposure to blood and other potentially infectious materials. This course covers a wide variety of topics pertaining to the dangers of bloodborne pathogens and outlines the proper measures you can take to ensure your safety.

The average student will require approximately 20 minutes to complete both the course and the quiz. Upon successful completion of the course, the candidate will be awarded a downloadable and printable certificate for their employment records.
