About this Course

Hazards are all around us. Being able to properly recognize workplace hazards is an important step not only for your own safety, but for creating a safe environment for everyone. This course will show you how to properly identify the eight main types of hazards, the steps used to assess the risk or danger associated with the hazard, and the various types of control methods that can be used to reduce or eliminate the hazard.

The average student will require approximately 20 to 25 minutes to complete both the course and quiz. Upon successful completion of the course, the candidate will be awarded a downloadable and printable certificate for their employment records.

Course Outline

What is a Hazard?

Exposure to Hazards

Hazard Identification

- Types of Hazards
- Health Risks

Hazard Assessment

- Hazard Evaluation
- Evaluation Criteria
- Establishing the Risk Rating
- Hazard Evaluation Example

Hazard Control

- Types of Control

Participation

Wrap-Up

Mastery Quiz (80% to pass)

Verification Techniques Employed

✔ **Identity:** Unique usernames and passwords.

✔ **Security:** Bank-level encryption.

✔ **Question Bank:** Every quiz attempt includes a unique combination of questions pulled from a large pool.

✔ **Certificate Verification:** Certificates contain a verification code that can be checked on MyOTF.com.
