

About this Course

Working in hot environments can be very hazardous if improperly prepared or aware of certain warning signs. This course covers a wide variety of topics pertaining to the dangers of working in high heat areas including identification of common heat stress disorders as precautionary measures that can be taken to ensure your safety. This course also features an embedded and downloadable poster outlining the safe working guidelines when working in high heat environments.

This average student will require approximately 15 to 20 minutes to complete both the course and quiz. Upon successful completion of the course, the candidate will be awarded a downloadable and printable certificate for their employment records.

Course Outline

- Factors Causing Heat Induced Illness
- Sources of Heat
- High Risk Activities
- Tips for Working in Hot Conditions
- Heat Disorders
- Working Guidelines
- Mastery Quiz (80% to pass)
