

About this Course

Under WHMIS legislation, every person who works with, or in proximity to, hazardous materials are required to complete training in WHMIS.

In 2015, WHMIS was revised to become WHMIS 2015. The revisions better aligned WHMIS 2015 with the Global Harmonized System (or GHS for short). In December 2022, WHMIS was amended again to align with revised editions of the GHS.

This course covers the fundamentals of WHMIS and is updated to include current revisions.

The average student requires 30 to 45 minutes to complete this training and is awarded with a downloadable and printable certificate of training.

Course Outline

- Course Overview
- About WHMIS
- Understanding Hazards
- Hazard Classifications
- Hazard Communication
- Mastery Quiz (90% to pass)
