

About this Course

Workers need to understand where asbestos can be found, know the hazards, and how to protect themselves from exposure. This is an Asbestos awareness course and is not a Certification to train workers how to work with asbestos. Certification training is beyond the scope of this awareness course.

This average student will require approximately 40 minutes to complete both the course and quiz. Upon successful completion of the course, the candidate will be awarded a downloadable and printable certificate for their employment records.
